FOSTER APPLICATION

Humboldt Animal Rescue Team is a nonprofit organization that focuses primarily on reducing the number of homeless animals in our community. Whenever possible we rescue abandoned cats, kittens, puppies and dogs, provide them with medical care, and make them available for adoption.

CAT FOSTER CONTRACT

We really value our foster parents and want to make the process of fostering clear so there is no misunderstandings. The process is as follows:

The Foster/Adoption Coordinator (FAC) intakes animals in need into our program. They are then placed with the appropriate foster parent. Kittens get Felv tested, their 1st set of FVRCP shots, dewormed and defleaed. When a kitten is 2 lbs (approx. 8-10 weeks) they are spayed/neutered and the foster parent may choose to let them recover from surgery for a few nights at their home. At that point they are returned to HART and are shown at various local pets stores and at the HART office. We receive applications from those interested in adopting and they are thoroughly screened by the FAC. If approved, adopters sign a contract committing to the cat for the remainder of its life and there is an adoption fee to help towards the animals medical bills.

Please read and initial the following:

_____ I have read and understand the adoption process and my valuable role in it.

_____ I understand that I am a volunteer of HART and the animals provided are the property of HART. Any animals that I foster for HART must be returned to HART at the request of the Foster/Adoption Coordinator (FAC.) Animals must be pre-approved by the FAC or they will not be included in the foster/adoption program.

_____ I will cooperate with the FAC and transport the fosters when necessary and arranged in advance (ie: adoption events, vaccinations, spay/neuter appointments and other veterinary care.)

_____ All foster cats/kitten are to be kept 100% indoors. FAC will approve outdoor areas for foster puppies.

_____ I understand that the FAC is responsible for scheduling the fosters spay/neuter and other vet procedures.

_____ I understand that the FAC will choose the adopter of my foster animal and I will respect that choice.

_____ I will not pursue a relationship with my foster animal's adopter and I have no role in the adoption process. Any further contact w/ adopter will be done only by the FAC.

_____ I understand that HART is not responsible for my personal animals' health and safety. If any injuries occur while the foster animal is in my care, HART is released from any liability or vet/doctors expense.

_____ I will contact the FAC at any sign of illness, parasites, fleas, etc.

_____ I understand that I answer solely to the FAC, unless otherwise instructed.

DOG FOSTER CONTRACT

We really value our foster parents and want to make the process of fostering clear so there is no misunderstandings. The process is as follows:

The Foster/Adoption Coordinator (FAC) intakes animals in need into our program. They are then placed with the appropriate foster parent. Puppies get their 1st set of DHLPP shots, dewormed and defleaed. When a puppy is approx. 8 weeks old they are ready to be adopted and spayed/neutered at a later date (once they are 4+ months old.) At that point they are brought to the HART office for adoption events and posted on the internet and in the community. We receive applications from those interested in adopting and they are thoroughly screened by the FAC. If approved, adopters sign a contract committing to the dog for the remainder of its life and there is an adoption fee to help towards the animals medical bills.
